**Limitless learning.
Beyond borders.**

DVGW at a glance

Quality, Safety, Innovation

- ➔ Leading technical body for gas & water – setting technical rules and standards
- ➔ Focus: safety, hygiene, environmental protection
- ➔ Independent & politically neutral
- ➔ Active in EU & international standardisation

H2 Academy by DVGW in Cooperation with Siemens energy

- ➔ High impact hydrogen training from DVGW & Siemens Energy International.
- ➔ Expert led. In person. Includes exclusive technical site visits.
- ➔ Now open to all: Hydrogen 360° – From Production to Application
(3 day seminar + preparatory e learning)

Powering the Hydrogen Future – Together

Hydrogen – Understanding the Energy Carrier of the Future from the Ground Up –
Professional Qualification

- ➔ Practical hydrogen know how
- ➔ Full hydrogen value chain
- ➔ Tailored trainings (on site or online)
- ➔ Growing international portfolio

Cross-Border Projects – Advancing Innovation Through Alliances

DVGW Vocational Training is part of the

HyAcademy.EU (EU funded Project)

- ➔ 17 partners engaged in developing hydrogen skills: Europe will need 180,000 direct and up to 1 million indirect hydrogen professionals,
- ➔ Tackle the growing demand for hydrogen education & skills programmes,
- ➔ DVGW focuses on professional training, upskilling, and EU wide recognition of qualifications,
- ➔ Project builds networks among training providers, institutions, schools & universities.

PermittHy (EU funded Project)

- ➔ Train public officials (permitter) and stakeholders (permittee) on hydrogen permission processes & safety,
- ➔ Offer multilingual materials (in 18 EU languages) and online/on site courses across 29 countries,
- ➔ Map permission processes in 16 Member States and create a best practice handbook,
- ➔ Develop digital risk assessment tools and train-the-trainer programmes,
- ➔ All results will be fed into a sustainable Hydrogen Academy platform.

Katy is telling the hydrogen pigeon story. Find our hydrogen book for young readers.
